Student Contribution Amounts

Units with multiple rates

For some units you will be charged a different student contribution amount dependent on the course you are admitted into.

From 2021, the Government legislated changes that affect the student contribution amounts for students in CSP places. One of the main changes is that students enrolled in Psychology and Behavioral Science units will be charged different fees depending on the course they are admitted into.

Are you a student admitted into one of the Clinical Psychology courses (Master of Clinical Psychology or Master of Clinical Neuropsychology) and enrolled into Psychology units?

You will be charged a lower student contribution amount for your psychology-based units (Band 1) as below:
