### *The role of the Consumer leadership group*

The consumer leadership group meets to talk about and co-create, co-design and co-produce patient related experience measures (PREMs) that are acceptable and suitable for people with intellectual disability.

People involved in the consumer leadership group listed (L) are lived experience researchers.

The Consumer Leadership Group directs the Listen to Me project with their needs, views and values shared, listened to and carried out.

### *The role of the Project Steering Group*

The project steering group (PSG) meets to keep the project on track. They talk about the project goals and make sure they are met or talk about how they can be met. They also make sure the research is carried out in the right way (ethically approved).

People involved in the project steering group listed (S) are from organisations who work with or for people with an intellectual disability or they are involved in research to improve the lives of people with an intellectual disability.

The PSG also includes two members of the consumer leadership group who have lived experience of an intellectual disability.
